The data I requested is not for houses but for places of work, which can employ thousands of people at any one time. In that respect, it is no different to [this request](#) that you responded to previously on call-outs to Butlins, Bognor Regis, [this one](#) on call-outs to Amazon warehouses, [this one](#) on call-outs to William Collier House, and [this one](#) on call-outs to prisons. For your reference, I have now added in red the names of the respective companies that own and operate the farms to the original request below. All this data is public and can be verified online. You will see that several of the farms are owned by the same large farming companies, including Mansfields, AC Goatham and Sons, APS Group, WB Chambers, The Summer Berry Company, Hugh Lowe Farms Ltd, Clock House Farms Ltd, and Edward Vinson. The data requested is squarely in the public interest, given the dangerous nature of agricultural work (The Health and Safety Executive says agriculture, forestry and fishing is [the riskiest industry sector](#)) and the number of precarious workers employed within the sector (The UK government's director of Labour Market Enforcement [has identified this as a high risk sector](#) for exploitation)

- **Date Range** - "01/01/2019 - 30/09/2022"
- **Paramedic Attended** - Cases where IncidentOutcome = "See and Treat"
- **Paramedic Attended** - Cases where IncidentOutcome = "See and Convey"
- To avoid PID, the details of the calls have been provided on a yearly basis
- As a Trust SECamb complies with the ICO Anonymisation Code of Practice. It applies the 'less than 10 caveat' in instances where resulting data relates to minimal numbers when responding to requests for information.
