Dear,

Tel: 0300 123 0999
www.secamb.nhs.uk

I am writing in response to your enquiry under the Freedom of Information Act 2000 (FOIA) reference FOI 230203.

You requested the following information, please also see our response below:

I would like to raise an FOI. For the calendar year 2022, please could you share:

- 1) The number of maternity related calls you received and what percentage of your total calls this equates to**

Total Maternity Calls – 3105

% of all incidents attended – 0.47%

- 2) The number of babies you delivered**

654

- 3) The number of cases of**

- a) Post-partum haemorrhage**

88

- b) Breech birth**

- c) Shoulder dystocia**

- d) Cord prolapse**

809

- e) Neonatal resuscitation**

9

f) Women you attended in labour

Count of Labour - 603

Incidents where at least one resource has arrived on scene and documented on the patient clinical record a condition code relating to 'pregnancy and labour'.

The full list is below:

Pregnancy & Labour (Code J)

Postpartum hemorrhage (disorder) J05 Antepartum hemorrhage (disorder) J06

Miscarriage (disorder) J07 Ectopic pregnancy (disorder) J13 Labor, function

(observable entity) J14 Birth of child (finding) J15 Born before arrival (situation) J16

Disorder of pregnancy (disorder) J17 Complication of pregnancy, childbirth and/or

the puerperium (disorder) J18 Resuscitation of neonate (procedure) J19 Acute

mastitis (disorder) J20 Pre-eclampsia (disorder) J21 Eclamptic seizure (finding) J22

Q3b-d The specific complications are not recorded separately as condition codes. I have provided the total of incidents where either 'disorder of pregnancy' or 'complication of pregnancy, childbirth and/or puerperium' have been recorded on the patient clinical record.

Patient clinical records that have two 'pregnancy and labour' type condition codes may be included more than once in the totals. For example a record with 'labour' and 'post partum haemorrhage' would be included in Q3a and also Q3f.

Q3f this figure does not include any calls where the crew has not selected labour as a crew condition on the Patient Care Record (PCR).

I hope you find this information of some assistance.

If for any reason you are dissatisfied with our response, kindly in the first instance contact Caroline Smart, Head of Information Governance via the following email address:

FOI@secamb.nhs.uk

Yours sincerely

Freedom of Information Coordinator
