Email:

Dear,

I am writing in response to your enquiry under the Freedom of Information Act 2000 (FOIA) reference FOI 240603.

You requested the following information, please see our response below:

As my dissertation is on the comparison of Syntometrine and Misoprostol, i am hoping you can provide a list of the medications your trust carries/uses; in order for me to discern which (if not both) of the drugs you carry, so that i may then compare this to what other trust use/carry.

Both syntometrine and misoprostal are within the SECamb formulary. Misoprostal is authorised via PGD for all paramedics and syntometrine is used by just our Critical care Paramedics.

I hope you find this information of some assistance.

If for any reason you are dissatisfied with our response, kindly in the first instance contact Caroline Smart, Head of Information Governance via the following email address:

FOI@secamb.nhs.uk

Yours sincerely
