Formal Response

The Trust confirms it holds the information you requested.

Please see attached workbook.

Data blurring at less-than-5: The Trust can confirm that this information exists. However, where an output represents fewer than 5 individuals or incidents in the period requested, we have not provided exact figures. This practice is known as data blurring, which serves to mitigate against the risk of possible re-identification of individual data subjects via data recombination (sometimes referred to as jigsawing). This risk is assessed in accordance with the Information Commissioner's Office (ICO) *Anonymisation Code of Practice*, in relation to Section 40(2) of the FOIA 2000.
