Has the patient been given sufficient information about the decision way appropriate to them?

1 Yes ☒

No ☐

Please explain how you have reached your answer  
Explained hEart going too fast

Is the patient able to understand the information they have been given?

Yes ☐

No ☒

Please explain how you have reached your answer  
Repeatedly asks "what?"

Have you been able to have a rational conversation with the patient about the pros and cons of what is proposed, e.g. the patient does not answer yes or no to every question regardless?

Yes ☐

No ☒

Please explain how you have reached your answer  
As above

Do you think the patient can retain information for long enough to make the decision?

Yes ☐

No ☒

Please explain how you have reached your answer  
As above

2 Patient able to explain their decision using their own words (in a way appropriate for them)?

Yes ☐

No ☒

Please explain how you have reached your answer  
Makes no decision

Have they got an advance statement present?

Yes ☐

No ☒

3

Have they got an advance decision present?

Yes ☐

No ☒

Is LPA or Deputy present?

Yes ☐

No ☒

Is it safe to wait for capacity to return?

Yes ☐

No ☒

ACT IN THE BEST INTERESTS OF THE PATIENT

BEST INTEREST PLAN

Primary Survey Notes

LS

18:55

Figure 41 – mental capacity assessment tab, note 1. the breadcrumb 2. the primary survey navigation button and 3. the criteria for accessing the best interest plan sub-tab

- ▲ Where you deem a patient to lack capacity you must clearly document your rationale in this tab, including free text fields in the right-most column
- ❗ The best interest plan will only be accessible if the patient lacks capacity
- ❗ The ePCR will compare your answers to the legal definition of lacking capacity (Mental Capacity Act, 2005) and generate a response in the grey box towards the bottom of the screen
- ✓ For patients whose lack of capacity only becomes apparent at a later stage, this section can be edited later
- ✓ Use the breadcrumb (1.) to go back to the consent tab
- ✓ Use either the breadcrumb (1.) or the main navigation menu (2.) to go back to the primary survey

### Best interest plan

Where you deem a patient to lack consent, you must complete a best interest plan through the button towards the bottom-right corner of the screen.

Figure 42 – best interest plan tab

- ▲ All fields in this tab must be completed to constitute a valid best interest plan
