Dear,

I am writing in response to your enquiry under the Freedom of Information Act 2000 (FOIA) reference FOI/17/05/05.

You requested the following information; please also see our response below:

A request under the Freedom of Information Act for documents relating to the training and practices of 999 operators in your trust.

Could we please:

- 1. Obtain the documents, including scripts and teaching materials, which details the protocol which 999 operators follow to determine whether or not CPR should be administered by the caller**
- 2. Obtain the documents, including scripts and teaching materials, which details the protocol for how to determine whether a person is dead and/or cannot be helped with CPR**

Please find documents from NHS pathways which are used by our trust call handlers for managing CPR. These documents are issued at a national level. I have also included a screen shot which shows the supporting information.

Please note that the documentation and screen shot provided are licensed copyrighted to NHS Pathways and therefore cannot be printed/published unless agreed by NHS Pathways. NHS Pathways can be contacted on the following email address enquiries@nhsdigital.nhs.uk

I hope you find this information of some assistance.

If for any reason you are dissatisfied with our response, kindly in the first instance contact Caroline Smart, Information Governance Manager via the following email address:

FOI@secamb.nhs.uk

Yours sincerely

Freedom of Information Coordinator
South East Coast Ambulance Service NHS Foundation Trust
