Dear,

I am writing in response to your enquiry under the Freedom of Information Act 2000 (FOIA) reference FOI/17/09/10.

You requested the following information, please also see our response below:

**I am looking for information in regards to the number and types of vehicles that your service operates. I.e. - number of ambulances, first response vehicles, helicopters etc.**

DCA – 299  
SRV- 231  
HART- 32  
Other – 132

The other is made up of workshop vehicles, IT vehicles, managers cars and other non operational vehicles.

All our DCAs are chassis cab boxed body vehicles, our SRVs are a mix of cars, 4x4s and LCVs. The HART vehicles are a mix of cars, 4x4s LCVs and larger commercial vehicles. Our other vehicles are a mix of workshop 4x4s, vans and manager's cars.

**Furthermore, I request information in regards to the current model of Defibrillator and vital signs monitor that your service currently uses, along with the replacement program that is in place.**

SECamb currently use Physio Control Defib Lifepack 1000 and Vital signs Lifepack 1200. We do not have a replacement programme in place.

I hope you find this information of some assistance.

If for any reason you are dissatisfied with our response, kindly in the first instance contact Caroline Smart, Information Governance Manager via the following email address:
