Dear,

I am writing in response to your enquiry under the Freedom of Information Act 2000 (FOIA) reference FOI/18/11/11.

You requested the following information, please also see our response below:

1. How many times has an ambulance hit a person in the last three years?

There have been less than 10 incidents involving pedestrians being injured by ambulances from 2015 – 2017. As this figure is less than 10 we are unable to provide the exact number as it may be identifiable to individuals

2. How many times has an ambulance caused serious injuries to a person after hitting them in the last three years?

There have been less than 10 incidents which caused serious injury from 2015 – 2017. As this figure is less than 10 we are unable to provide the exact number as it may be identifiable to individuals

3. How many people have died as a result of being hit by an ambulance in the last three years?

None

Please provide answers in a yearly breakdown for the last three years (2015, 2016 and 2017).

We are unable to break this down by year as the figures are less than 10 in total and therefore may be identifiable to individuals

I hope you find this information of some assistance.

If for any reason you are dissatisfied with our response, kindly in the first instance contact Caroline Smart, Information Governance Lead via the following email address:

FOI@secamb.nhs.uk

Yours sincerely

Freedom of Information Coordinator
South East Coast Ambulance Service NHS Foundation Trust
