No of birth imminent / labour	No of pregnancy related incidents

No of babies delivered	Post-partum haemorrhages	Neonatal Resuscitation

*Please note that this data is taken from the crew condition codes whilst with the patient so may not have been the original reason being given for the call

* The crew condition code (which was used to answer these questions) was identified in scanned fields. Please treat values with caution due to inaccuracies associated with OCR (Optical character recognition).

*Also, this may not be the reason for the call and please be aware that not all cases may be identified if this has not been recorded."

*The values provided are from 1st January 2018 to 31st January 2019

I hope you find this information of some assistance.
